

# Spa Table Instructions

## Suction Cup Base

Features a base with 3 strong suction cups. Ideal for use in wet environments and as a pool or spa cover support. Made from 100% Furniture grade PVC.

### Assembly:

1. Attach top to leg.
2. Cut leg square to desired height.
3. Apply an adequate coat of glue to end of leg and inside of base.
4. Engage leg to fitting with slight twisting motion. Be sure fitting is bottomed and in correct position.  
*Let glue set before moving leg!*
5. Allow glue to set a minimum of **2 hours** before installing in spa.
6. Secure suction cups with enclosed screws.

## Weighted Base

Features a weighted base for stability on any surface. Made from 100% Furniture grade PVC.

### Assembly:

1. Remove plug located on top of base and fill with washed (clean) stones. Reinsert plug.
2. Attach fitting located underneath base into top of base.
3. Slide pipe into attached fitting and tighten ring.
4. Apply included glue to insert fitting beneath table top.
5. Place top on pipe with a twisting motion.
